Young boys and children's clothes, at less than New York prices, will be sold this week, at P. Neff's, regardless of cost.

The Continental is the only cook stove with sliding oven doors. Warranted in all respects. Pincher &amp; Henry, at 192 Commercial Avenue, cost \$22 per cent.

They never tire the eye. They last many years without change. They are perfect in every particular. They are warranted not to break. Call on Taber Bros., our well-known jewelers, and ask about them.

Louis Houch, Esq., formerly of this city, is now practicing law at Cape Girardeau, Missouri. He is spoken of as the probable Democratic candidate for Congress in the Cape district. Mr. Houch is a young man of brilliancy, and has devoted a great deal of his time to politics. He has many friends in Cairo who will rejoice at any news of his prosperity.

The St. Nicholas Hotel, formerly of this city, is now being managed by Messrs. Walker &amp; Slisson, doing a large and thriving business. It is kept upon the European plan—the guest calling for what he wants and when he wants it, whether in the day or night time, and paying only for what he orders. The rooms are large and clean, furnished with the best of beds and bedding, while all other features of the establishment are arranged with an especial eye to the comfort and convenience of the guests.

Two switchmen of the Illinois Central railroad were sitting together on the railing of the sidewalk on the Ohio Levee, above the stone depot, when the railing broke and precipitated them a distance of about ten or fifteen feet. One of the men had his jaw bone broken.

A COUNCIL.

We are informed that a committee waited upon Mayor Wilson the other day and respectfully demanded the official head of Jailer McHale. Why? Because McHale has made an excellent officer? Probably. Well, will the head come off? If it does, what will follow? The Council will probably protest with all becoming meekness and settle down again resigned, if not satisfied. King Caucus is a very wayward fellow. Sometimes he does not stick to his promises.

COUNCIL MEETING TO-NIGHT.

There will be held to-night a joint meeting of the City Council to go over the ground passed over on Saturday night last. Mayor Wilson is not at all pleased with the action taken in regard to Mr. Gamble's manufacturer, and freely expresses the opinion that the members of the Council did not know what they were about when they acted as they did in this matter. He seems to believe that the councilmen are wooden-pated fellows, liable to run into grave errors when he is absent from the city, and very willing to be led back by him on his return into the paths of common sense. We shall see!

THE JUNCTION R. R.

PROSPECTS OF ITS CONSTRUCTION.

UNEASINESS OF ST. LOUIS.

There is every reason to believe that a railroad to connect Cairo with the Mobile and Ohio road, at a point about twenty-five miles south of Columbus, Kentucky, will be constructed. There is a charter under which this road can be built, (indeed, there are two), granted by the legislature of Kentucky, and the necessity of the road to the Illinois Central has been recognized by the President of that company, who, in his last annual report, recommends to the stockholders its early construction. Indeed, the officers of the Central are alive to the importance of this connecting link;

and we have reason to believe, the present visit of the President and Superintendent of the road to Mobile, and should aid the Illinois Central instead of throwing specimens in its way. The road, we believe, will be built in a short time. St. Louis is already nervous concerning the enterprise, and in talking about fast freight cars from St. Louis to Mobile, the favor shown to Cairo by the M. &amp; O. road, and the impossibility of building up a trade with the South, unless the city can get possession of that thoroughfare. Now, if Cairo should step in and bag the game, St. Louis would have greater reason to set up a wall, and scatter around her maladies upon her enterprising rivals.

Flowers! Flowers! Flowers!

To Whom it may Concern.

Have you ever bewailed your grey hair with the viscid dyes or worse preparations offered as substitutes? If so, they disgust you of course, but let not that prevent you from using "Phalon's Vitalia or Salvia for the Hair," which is clear and harmless as water, in all respects agreeable and effects the desired object thoroughly and satisfactorily.

There's no such Word as Fail!

This is absolutely true in using "Doeley's Chemical Yeast Baking Powder,

so perfect is the combination of the ingredients entering into its manufacture,

that good biscuits, rolls, or pastry both light and nutritious, can be made without fail.

It is always ready, always reliable, and requires but half the quantity of those of ordinary manufacture. For sale in packages to meet the wants of all, by grocers generally.

Just received at P. Neff's, No. 79, Ohio Levee, a splendid lot of spring Cassimeres, Coating and Vestings, which will be made up in the most fashionable styles, and at prices to suit the times, a perfect fit guaranteed or no sale.

The new supply of silk hats just received by Miller &amp; Miller is worthy of especial attention of gentlemen who wish to purchase anything in that line that is strictly fashionable and of first-class manufacture. The supply embraces all sizes; and as to price and quality satisfaction is guaranteed.

FURNISHING GOODS.

The completed stock of gentleman's furnishing goods in the city, is to be found at Miller &amp; Miller's. It would be a remarkable want, indeed, in this line that they cannot satisfactorily supply at the very lowest figures ruling in this market

Drawers and Undershirts, at a sacrifice at P. Neff's, No. 79, Ohio Levee.

The weather continues cloudy. Mercury

64. Business, fair. The Mississippi is

still rising at St. Louis. The Ohio is rising

rapidly at Pittsburgh, owing to late and very

heavy rains, with 104 feet in the channel.

It is also rising at Cincinnati and Louis-

ville; a foot 8 inches in the pass over the

falls.

Here the river has risen 2 inches in the

past 24 hours.

The Quickstep is the Evansville pack at

this evening.

The Kate Robinson, for Cincinnati, Belle

St. Louis, for Memphis, David Wattis, for Tennessee river, are due to-day.

The Odd Fellow has already commenced work, and is doing a smashing business in a small way, which will be of great benefit to persons residing at way points between this place and Columbus. Yesterday she left with load of freight for Columbus and way points, returning with a load of corn. To-day she departed with a fair load of hay and a large lot of sundries for the same points. Her dimensions are as follows:

Length, 100 feet; Breadth 18'; Depth of hold, 3 feet.

She has two boilers, 4 tons each, 38 inches in diameter, and 18 $\frac{1}{2}$  feet long. Her cylinders are 11 $\frac{1}{2}$  inches in diameter, 32 feet stroke. Her wheel is 12 feet in diameter with 114 feet buckets.

The St. Louis Republican seems to think that the name of the Odd Fellow is in appropriate as it is known that all boats require a mate. We would state that in this particular case that an officer is dispensed with, her Captain officiating in that capacity in connection with his other duties.

The C. B. Church took a full load of sundries for New Orleans.

**Commercial.**

MONDAY EVENING, March 28, 1870.

Our general market presents no new features worthy of special note since our last semi-weekly review. The amount of business transacted has been necessarily limited, as our receipts have been light, and there is no shipping demand for flour, grain or any other of the staple articles. We note an improvement in the order trade, and our daily receipts of corn, oats and hay are insufficient to meet this demand. Prices of all these articles continue firm, and our last quotations are readily realized on all merchantable offerings. In consequence of a dull market, our receipts of flour have decreased of late, but are still in excess of the current demand, and are consequently generally going into store. As dealers have ample stocks on hand, we have no sales to the trade to report, but all on orders. These have been more than usually limited of late, owing to the general belief, which seems to be entertained throughout the country, that prices must yet go lower. Our own opinion (which coincides with that of dealers here) is that unless gold should go much lower than at present, (which it is not at all likely to do during the spring and summer months,) flour has reached its lowest point. With a return of confidence in present values, the volume of business in this staple must be increased, and the market assume a healthier tone. We think the present is good a time to buy, as any that will likely occur before another harvest.

D. R. HUBBARD having opened an office in rooms over the store of Messrs. Haynes &amp; São, No. 124 Commercial Avenue, begs leave to offer his services to the citizens of Cairo. He refers to Dr. N. S. Davis, Chicago; B. W. Raymond, Esq., Chicago; Benj. Stickney, St. Louis; H. Thos. Ewing, Ohio; E. G. Booth, Erie, Philadelphia.
